

Furlough and More...

Furlough has been a tremendous blessing as it has allowed us to visit many churches and rekindle many friendships throughout the United States. The majority of our travels have been focused on the New England area, the upper Midwest, and Texas. We have put several thousand miles on our vehicle and still have many more to go. We recently had the opportunity to speak at a youth camp where the focus was on missions. It was an informal time where around 80 youth had the opportunity to listen to Tiffany's and my testimonies, and they were given the opportunity to ask questions. You could see God was working as many of the questions were not the typical everyday questions, but rather, thought-provoking questions about how to do ministry in other countries and how to reach the lost. Pray with us that God would call several of these young people into ministry, including missions as the need is so great today.

I would like to share another prayer need on the health front. In November of last year, I had to have surgery, and unfortunately, I have had a complication from that procedure and now require another surgery Stateside to fix the issue. Pray that God would guide the surgeon and that He would heal me quickly as there is a lot of pain associated with this procedure. The first surgery required almost 8 weeks to fully recover with the first three weeks being in bed dealing with pain relief. The doctor has told me that this time it should only be about 2 weeks for pain relief as the surgery does not have to be as invasive as the previous one.

On the Chilean front, thanks to modern technology, I have been able to have several video meetings with the leadership. And so, even though we are not physically in Chile, we can stay very involved with everything going on. The ministry continues to move forward. The leaders in Chile have been doing a wonderful job week after week. New people have been stepping up to serve when needed. You might remember that in our last letter, I shared with you Rayen's testimony of salvation and baptism. She has been living with a man for several years and they have two children together, but are not married (which, unfortunately is very common in Chile). She recently wrote to me and expressed the desire to get married. It is wonderful how the Holy Spirit works in the lives of new believers. When we return to Chile, I will begin pre-marital counseling with them as they plan their wedding.

In the coming days, our furlough travels will once again take us into the upper Midwest along with the desert Southwest and the Plains states. Please continue to pray for our safety and health. Pray that God would continue to use us as we visit churches. Pray also the God would provide us with a small amount of new support to combat the rising costs of inflation in Chile. Thank you for all you do to help us reach the unreached in the country of Chile.

Clifton & Tiffany Booth
