

March/April 2025

By the grace of God, Tammy's ministry with the ladies here in Kenya continues to bear much fruit. In the last part of April, Tammy was one of the leaders of a three-day women's workshop on how to properly interpret Scripture.

This year's workshop saw 65 ladies participate as they worked through the book of Habakkuk verse by verse. The workshop included teaching sessions and small group discussion.

Tammy has been given a unique opportunity to begin doing some counseling for an international counseling ministry which focuses upon those who are in full-time ministry. Since the counseling can be done online, Tammy has been able to counsel other women in ministry serving around the world.

At the request of our Kenyan pastor, Tammy has been asked to start a ministry for the wives of the pastoral staff, interns, and missionaries out of our church. At this point, the men have ample opportunity for personal growth through various classes, conferences, and retreats. However, the wives of these men who are in ministry or training for the ministry do not have the same opportunities for instruction and fellowship.

Tammy's desire is to walk alongside these ministry wives by providing the needed encouragement, training, and fellowship that will enable them to be godly women serving together with their husbands.

I know Tammy would appreciate your prayers as she seeks to glorify the Lord through these various ladies' ministries.
