Dear friends and family,

October 2025

It was 113 degrees inside our house the day we left for the states on August 25th. It was 93 degrees inside the house the day we arrive back here on October 3rd. Comparatively, it felt like air conditioning.

It was so good to be in the states. We were there for almost 6 weeks renewing our kids' passports, visiting 15 supporting churches, raising additional support, and getting some much needed R&R. What a blessing it was to report to our supporting churches and see so many familiar faces, as well as many new faces.

Two college students were saved after one of the services, and we rejoice with them, praying for them to get grounded in the Lord, and tell others about Jesus.

My wife and I got our physicals done to make sure we are healthy (we are), and I had a great time witnessing to someone while I sat in the waiting room. At first, he explained that he had a bad experience with religion, but he listened intently as I was able to explain the whole Gospel to him. Please pray that the seed sown would bear fruit.

Our own church people were delighted to have Pastor Randy Alderman, currently with BIMI's ARM ministry, preaching in my absence. He served the Lord in Togo, Africa for 34 years, and speaks fluent French. It was encouraging to hear the reports of how our church people took care of him and his wife while they were here.

Since May, our electrical grid has been experiencing frequent brownouts. So far, it has ruined several appliances, including our oven, washing machine, well pump, and refrigerator. We are praying about going solar.

Thank you for your faithful prayers and support.

In Christ,
Paul, Amy, Abby, Emily, Sadie, Ben, and Caleb Valles
Your missionary to the Turks and Caicos Islands
