BIBLE COLLEGE NEWS

This year's graduating class was the largest class in the history of our college. We had the joy of presenting bachelor's degrees to eleven graduates this year. Knowing the amount of work and sacrifice it took for them to fulfill all the requirements for their degree (including serving an internship at a local church), it makes the graduation ceremony even more joyful. Normally, our graduates receive a variety of ministry books as a gift at graduation. However, this year a church in the States provided each graduate with a laptop

computer. To say that the graduates were thrilled is a huge understatement! Please pray for these graduates as each of them seeks the leading of the Lord as to where to serve in some type of full-time ministry. It's exciting to think of the countless lives that will be touched and the lost souls that will be reached through the ministries of these graduates. Virtually all our past graduates are in some type of full-time ministry. This is why our Bible college ministry is such a crucial aspect of our goal to teach and equip Kenyan and Tanzanian nationals for the work of the ministry.

Also, please pray for me as I develop the curriculum for a new class that we are offering in May. The class will be a survey of the major prophets. In the past we have offered the major prophets (Isaiah, Jeremiah, Ezekiel, and Daniel) as separate individual classes. However, because of requirements for the bachelor's degree, we are needing to combine the major prophets into one survey class. It will be a challenge to know what to include and what not to include in teaching through these large books of the Old Testament.

Lastly, please pray with us as we consider adding a Master of Ministry program at our college. Many of our past graduates have shown an interest in continued studies after graduation from our bachelor's program. We would like to offer our alumni some type of post-graduate ministerial and theological study and training. We are currently discussing and investigating how to go about doing this. Please pray that the Lord would give us clear direction in this matter.
