

March 2026

Dear Pastors, Church Family, Family and Friends:

Missionaries Rick Martin and Bruce Rice Rice: I was in Iloilo, Philippines, about a month ago for a BIMi Missionary Field Conference. I had the great privilege of spending some extra time with two amazing missionaries that have given their lives for many years to the people of the Philippines. Their faithfulness to the Lord and to His work is a great inspiration to me in my life. It's a great honour to be able to call them friends. They are still doing what they started out doing when they first came here. They have not changed their beliefs or their stand for the Lord. God is using both of these missionaries here in the Philippines in a great and mighty way.

Alumni Meeting: We started our Bible college in 2016, and since that time we have tried to stay in contact with our graduates. We had an alumni meeting the day before our college graduation. It was a blessing to see these graduates still serving God with their lives. It has been an honor to have a little part in their lives. It's a great joy to see how God is using them.

Bible Institute: We started our Bible Institute 2001, and it was started mainly for the members of our church. At this time, we have many of our church members taking the Bible Institute and many other churches sending their members. Our Bible Institute is two hours each Tuesday and Thursday nights. This past year we had over 100 attending. It was a great blessing this year to see many of our members finishing their studies. We had 34 total graduate from the Institute.

Bible College: This graduating class was the largest that we have ever graduated. We had 53 Graduates. We had 4 Deaf graduates from the Deaf Bible College. This year, we had some amazing young people that I believe will be used greatly for the Lord in the years to come. I say this often, good students come from good parents and from good churches. We are very blessed that God allows us to have a small part in their training to serve the Lord.

May God Bless You,
