

Dear Prayer Partner,

August 2026

Like many ministries on this side of the world, summer is a busy time. This has been the second summer of Solid Rock Baptist Church of Belize, and we praise God for all the many visible and invisible ways He has worked in this church and in our lives. Belize Baptist Youth Camp was incredible once again this year. We invited Stu Schepers, who served many years as a missionary in the Dominican Republic, to be our camp speaker. The campers and adults alike were blessed by the preaching and fellowship. Before camp even began, representatives from Camps Abroad Ministries conducted a training seminar with us and the other churches that participate in this camp ministry. They shared their expertise from working with many international churches attempting to conduct youth camp, particularly in developing countries. In addition to the seminar, they were a tremendous blessing during the camp week, facilitating games, devotional times, and other practical assistance.

Speaking of people being a blessing, the end of June, Bible Baptist Church of St. Thomas brought a group of people and funds to assist us with our church building project. They completed a significant amount of work with fantastic attitudes. They also participated in the preaching and teaching on Wednesday and Sunday as well as Youth Group on Friday.

We praise the Lord for people and ministries like these who invest in us, our church family, and the churches of the other missionaries here in Belize and around the world.

Please continue to pray for our church family here. The past few months, the people have endured an astounding number of difficulties. These include health crises, family, job, and financial trials, and more. The more faithful and excited they have been to get involved, the more challenges they have seemed to face. Please pray that the Lord would use this time to deepen their faith, grow His church, and that He would provide us with wisdom to serve and love them well.

We would also appreciate prayer for our immigration paperwork. We have been assured repeatedly over the past four months that our permanent residency is just a few weeks away from completion. Thank you for praying for Tracy's health. We're still trying to get some answers and direction on how to get her back to a level of health that'll allow her to resume her regular day-to-day responsibilities. Towards the end of August, our middle child, Makayla, will begin her freshman year at Pensacola Christian College. Our oldest, Jossalyn, will be going into her third year there. We appreciate your prayer on behalf of our family.

For His Glory,
Dan and Tracy Dinsmore
Psalm 62:5
